- Stay in a university resident hall room
- Help with a service project

Limited Class Size

Class size is limited to the first 16 enrollees. Applications must be received by May 19, 2008. Accepted applicants will receive confirmation of registration along with a medical form, schedule and camp agreement.

Campers will stay in an air-conditioned residence hall suite with other campers and a camp counselor who is also a nursing student.

Cost

Tuition* of \$250 includes three nights of lodging, all meals from Monday lunch through Thursday lunch, a camp T-shirt, and transportation to all clinical experiences and recreational events.

** Non-residential rate is \$200 for students who are not staying in the dorms.*

Application Deadline

Applications must be received by May 19, 2008.

Please refer to the attached "Nursing Camp Application" for instructions on how to register.

Discover BCU's Nursing Program

The mission of the Department of Nursing at Briar Cliff University is to promote health, healing and hope of persons and the community and to advocate for social justice and healthy environments.

Briar Cliff's Nursing Program prepares graduates to fulfill healthcare needs through promoting wellness care in the Franciscan tradition of service, caring and openness to all.

The nursing major is a four-year baccalaureate program, including more than 900 hours of clinical nursing experience in both in-patient and community settings. Learn more about Briar Cliff's Nursing Program at www.briarcliff.edu/academics/nursing.

This mission is lived primarily but not exclusively in educating baccalaureate prepared nurses within an environment that fosters holistic personal and professional development; prepares nurses who will independently and interdependently promote, restore, and maintain the health of client systems in a variety of health care settings; develops nurses who will participate in decision-making designed to improve health care delivery in a rapidly changing society and complex health care system; and provides a foundation for continued learning, for integration of new knowledge into practice, and for graduate education in nursing.
