TRANSFER GUIDE

BACHELOR OF SOCIAL WORK (BSW) PROGRAM

OVERVIEW

Social work is a helping profession. Social workers assess human problems and engage in problem solving. The social worker understands the process of individual development and the interaction with the social environment. The baccalaureate major in social work prepares generalist social workers at the undergraduate level for entry-level positions in social work and for graduate social work.

WHY THIS PROGRAM?

Make a difference: By the time you graduate, you'll have a network of social work colleagues and will go on to advance human rights and social and economic justice; engage in research-informed practice and practice-informed research; engage, assess, intervene and evaluate with individuals, families, groups, organizations, and communities; and so much more!

Experience a historically accredited program: BCU's social work program is nationally recognized, because we care about helping social work students foster their skills for changing lives. Accredited by the Council on Social Work Education since 1974, Briar Cliff University's social work program has been continuously accredited, with the most recent reaffirmation of accreditation in 2018.

Explore: Get hands on experience. Embark on mission trips across the country or internationally to Honduras and Tanzania. You and your peers will spearhead relief efforts and gain insight through culture and adventure. Students looking for experience in practicing social work in an urban setting have the opportunity to complete their practicum in Chicago with Chicago Semester.

PROGRAM ENTRY

Students enrolled in this cooperative program complete their Social Work, Associate in Arts Degree at EICC and the Online Bachelor of Social Work Degree Completion Program at BCU. Assessment and advising before registration will help ensure success in program planning and completion.

CAREER OUTLOOK

Human needs in our society, whether at the individual, group, community, or national level, continue to call for the professional social worker's knowledge, values and skills in meeting them. Program graduates find employment with a variety of governmental (state and local) and private agencies that include the areas of child welfare, health care, addictions, mental health, youth services, geriatric services, criminal justice and community advocacy.
