The Kinesiology & Human Performance Department (KHP) at Briar Cliff University would like to invite your 6-10 year olds to participate in research sponsored by Strider Bikes International Inc.

**To qualify for this research project, please fill out the following information.**

Parent or Guardian’s Name: ____________________________________________

Child’s Name: ________________________________________________________

Child’s Birthdate: ____________________________________________________

Address: ____________________________________________________________

City/State: __________________________________________________________

Phone number: ______________________________________________________

Age of Child: _________________________________________________________

Gender: ______________________________________________________________

Diagnosis based on Educational or Medical evaluation? ____________________

Has your child had an ADOS, and if so, what did he or she score? _______________
Days and times available for participation (morning/evenings): ______________________

Does your child currently partake in any bicycle or outside activity background and if so what type of activity is it? __________________________________________________________

**Medical and personal information release statement:**

I, hereby give Briar Cliff University KHP and Physical Therapy Departments, The Pier Center for Autism, and the Northwest AEA permission to evaluate my child’s history in order qualify them for the upcoming study to begin in early June 2015. I fully understand my child is allowed to withdraw from this study at any time, regardless of reason.

Signature of parent/guardian: _________________________________

Date: __________________________________________________________________________________

If you have any further questions about the study design, please contact Sean Peterson at the Pier Center for Autism (712) 522-2961, Jan Turbes at the NWAEA (712) 222-6041 or the Principal Investigator of this study, Dr. Andrew Shim (712)-279-1780 or email him directly at andrew.shim@briarcliff.edu.
